## Inside The Kitchen of The Future: iPhones That Make Lattes, \$125,000 Cabinets

**Erin Carlyle**, Forbes Staff  
**BUSINESS** 3/25/2014

Excerpt from article:

Tea-totalers might prefer to break the bank via cabinetry, perhaps with the \$125,000 100% Wood kitchen island by Effeti, carved out of a single tree. That's right. The Florence-based company builds its kitchen islands using one large piece of mature chestnut timber sourced from managed forests, and makes only a handful of signed, limited-edition kitchen islands per year.
